SUMMARY

Front-end developer skilled in **React.js, Next.js, TypeScript, and Sanity**, with experience building responsive and dynamic web applications. Passionate about UI/UX, performance optimization, and scalable architectures. Seeking an opportunity to contribute and grow in a professional setting.

PROFESSIONAL SKILL

Front-End Development: Advanced proficiency in **HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React.js, and Next.js**, expertly crafting visually captivating, interactive, and responsive interfaces. **Back-End & Databases:** Demonstrated expertise in **Firebase** and **Headless CMS (Sanity)**, building robust, scalable, and efficient data-driven solutions. **Additional Technologies:** Proficient in **Python** and skilled in **Prompt Engineering**, underscoring a versatile and innovative approach to tackling complex technical challenges.

EDUCATION

Govt Degree Boys College 5-L | Computer Science | 2024 – 2026

GIAIC | Front-End Development | 2024 – 2025

GIAIC | Agentic AI Engineering | 2025 – 2027

Work Experience

Front-End Intern | ByteForge Solutions (European-based company, Remote Internship) Dec 2023 – Feb 2024

Developed responsive and interactive UI components using **React.js** and **Next.js**. Collaborated with a remote team to enhance web application performance and user experience.

Optimized front-end code for better **SEO** and loading speed.

Gained experience in modern UI libraries and state management.

Project Experience

E-commerce Store

<http://ui-ux-hackhathone.vercel.app/>

Developed a fully functional e-commerce store with a modern UI/UX using Next.js and Sanity. Integrated Stripe for secure and seamless transactions, ensuring a smooth checkout experience. Built an Admin Dashboard for efficient order management and tracking. Implemented key features like Add-to-Cart, Checkout, Order Tracking, and a Chatbot to enhance user experience. Designed dynamic product pages with search and filter functionalities for easy product discovery. Optimized performance for fast loading and smooth navigation. Blog Website (Hezzi Blog)

HezziBlogs

<https://hezzi-blogs.vercel.app/>

Designed and developed a Hezzi blog platform with a modern and engaging UI. Built a Bento Grid layout using Next.js, Ascernity UI, and Magic UI for a visually appealing experience. Ensured full responsiveness for smooth access across all devices.

Coffee shop UI Design

<https://coffee-website-flax.vercel.app/>

Developed a sleek, modern Coffee website UI using Next.js. Focused on user-friendly navigation and mobile responsiveness.
